Automatic Block Signal System

Centralized Traffic Control

RULE 5. Schedule times shown in small type indicate special instructions in the timetable govern movement.

RULE S-72. Westward trains are superior to trains of the same class in the opposite direction except as noted on pages 2, 3, 4 and 5.

RULE 105. Sidings designated "E" in capacity of sidings column are assigned for use by eastward trains; those designated "W" are assigned for use by westward trains.

Capacity of sidings column indicates the number of cars of average length of 49 feet that siding will hold between fouling points, in addition to one steam engine and caboose.

SPECIAL INSTRUCTIONS—REDDING SUBDIVISION

RULE 82-A. Extra trains originating at Redding and operating between Redding and Coram will display indicators as an Extra train on entire trip as indicated by the engine number of the lead unit leaving Redding and are authorized to operate as Extra trains between Redding and Coram without obtaining a clearance. Rule 99 will not apply between Redding and Coram.

Dunsmuir Yard: Westward trains originating, except No. 377, will display indicators as extra trains between Dunsmuir Yard and Redding as indicated by engine number of the lead unit and are authorized as extra trains between Dunsmuir Yard and Redding without obtaining a clearance at Dunsmuir Yard. No. 377 is authorized to display indicators and assume the schedule without obtaining clearance at Dunsmuir Yard.

RULE 83. Extra trains originating Redding enroute Coram, in addition to information required by the train register must register destination of trip (turning point) and date of departure in the column captioned "Signals." When trip has been completed, date of arrival at Redding must also be entered in column captioned "Signals." An Extra train enroute Coram must not leave Redding until it has been ascertained from the train register that all preceding Extra trains via the route to be used have completed their trip and registered time and date of arrival at Redding accordingly.

RULE 83-A. At the following stations, only the trains indicated will register:

Dunsmuir ..... Trains originating or terminating.

RULE 83-B. At open train-order offices, trains may register by ticket as follows:

Dunsmuir—Nos. 9, 10, 11 and 12.

RULE 93. Second- and third-class and extra trains arriving Gerber may proceed on main track when proceed signal received from yardman. A proceed signal will be an indication that protection has been provided against first-class trains.

RULE 105. Redding. Siding is first track on freight station side of main track extending from MP 258.68 to MP 257.00.

Track on passenger station side of main track is designated as No. 1 track and must be left clear of cars for use in meeting or passing trains unless otherwise instructed by train dispatcher. Capacity 93 cars.

RULE 208. Third and fourth paragraphs will not apply to westward trains at Redding but it must be ascertained that train is not restricted at Redding before passing west switch of siding.

RULE 221. Dunsmuir is a train-order office only for trains originating.

Train orders covering loads of excess width and/or height may be delivered by messenger to conductor of trains originating at Dunsmuir Yard without a clearance.

SPECIAL INSTRUCTIONS—BLACK BUTTE SUBDIVISION

RULE 82-A. First-class trains and sections thereof authorized on the Black Butte Subdivision and operating through Klamath Falls will not take down indicators or signals, if any, on arrival at Klamath Falls. Display of indicators and signals, if any, on first-class trains and sections thereof at Klamath Falls will indicate that such trains are authorized on the Kirk Subdivision and are not required to obtain clearance at Klamath Falls.

Eastward trains originating at Dunsmuir Yard will display indicators and signals, if any, between Dunsmuir Yard and Black Butte which may also be displayed east of Black Butte via Hotlum or Igerna unless superseded by train order or clearance at Black Butte without obtaining a clearance at Dunsmuir Yard. Yardmaster at Dunsmuir Yard will advise conductor and/or engineer indication and signals, if any.

RULE 83. Eastward trains must obtain train-order check of overdue superior trains at Black Butte, but may identify opposing trains between west and east switches Black Butte, and may identify eastward superior trains between train-order office and east switch Black Butte.

RULE 83-A. At the following stations only the trains indicated will register:

Dunsmuir
Klamath Falls Yard
Weed
Montague } Trains originating or terminating.

Klamath Falls..... First-class trains and Extra Passenger trains.

RULE 83-B. At open train-order offices, trains may register by ticket as follows:

Dunsmuir — Nos. 9, 10, 11 and 12.

RULE 105. Black Butte. Siskiyou siding extends from connection to controlled siding at west switch Black Butte to connection to controlled siding opposite east water column. West switch is dual controlled, east switch hand operated. Westward trains must not enter Siskiyou siding without permission from dispatcher.

Grass Lake. Track on station side of main track is westward siding. Westward trains taking siding, stop east of west switch house track. Track on opposite side of main track is eastward siding.

Siskiyou. When a westward train is holding main track to meet an eastward train and switch is open for train to enter siding, conductor of train holding main track will arrange to protect the eastward train against light engines or other trains occupying siding, and will give the eastward train sufficient room to avoid stopping engines in tunnel.

RULE 208. Black Butte. Fourth paragraph will not apply to eastward trains via Hotlum and train-order operator may place such orders on delivery post for delivery to the restricted train before such train has stopped but CTC train dispatcher must not clear eastward absolute signal at east switch until such train has stopped or restriction has expired.

RULE 221. Dunsmuir is a train-order office only for trains originating.

Train orders covering loads of excess width and/or height may be delivered by messenger to conductor of trains originating at Dunsmuir Yard without a clearance. Eastward trains originating at Dunsmuir Yard must pass Dunsmuir prepared to pick up train orders covering loads of excess width and/or height without a clearance when operator is on station platform with such orders for delivery.

Klamath Falls Yard is a train-order office for trains originating and terminating; and for westward trains originating at Klamath Falls.

Before departing Klamath Falls, westward trains must obtain a clearance, OK'd by Chief Train Dispatcher.

RULE 82-A. Extra trains originating at Alturas and operating between Alturas and Lakeview will display indicators as an Extra train on entire trip as indicated by the engine number of the lead unit leaving Alturas and are authorized to operate as Extra trains between Alturas and Lakeview without obtaining a clearance. Rule 99 will not apply between Alturas and Lakeview.

RULE 83. Extra trains originating at Alturas enroute Lakeview, in addition to information required by the train register, must register destination of trip (turning point) and date of departure in the column captioned "Signals." When trip has been completed, date of arrival at Alturas must also be entered in column captioned "Signals." An extra train enroute Lakeview must not leave Alturas until it has been ascertained from the train register that all preceding Extra trains via the route to be used have completed their trip and registered time and date of arrival at Alturas accordingly.

SPECIAL INSTRUCTIONS—KIRK SUBDIVISION

RULE 82-A. First-class trains and sections thereof authorized on the Black Butte Subdivision and operating through Klamath Falls will not take down indicators or signals, if any, on arrival at Klamath Falls. Display of indicators and signals, if any, on first-class trains and sections thereof at Klamath Falls will indicate that such trains are authorized on the Kirk Subdivision and are not required to obtain clearance at Klamath Falls.

Eastward extra trains originating will display indicators as extra trains between Klamath Falls and Crescent Lake as indicated by engine number of the lead unit and are authorized as extra trains between Klamath Falls and Crescent Lake without obtaining a clearance at Klamath Falls.

RULE 83. Westward extra trains will identify westward first-class trains between Crescent Lake and Klamath Falls.

RULE 83-A. At the following station only the trains indicated will register:

Klamath Falls....First-class trains and extra passenger trains.

RULE 83-B. At open train-order offices, trains may register by ticket as follows:

Crescent Lake....First-class trains.

RULE 105. Crescent Lake. Passenger siding at Crescent Lake is between main track and station building.

RULE 107. Chemult. Freight trains on siding Chemult for passenger trains must provide passageway for passengers to station, member of crew to be stationed at the cut. Train must not be recoupled until all passengers have passed to station side.
